## PROFESSIONAL SUMMARY

---

Student at faculty of computers and information Majoring in Data Science. Data Analyst with hands-on experience in SQL, Python, Excel, Power BI, and Tableau. Skilled in data analytics, data visualization, machine learning, and deep learning with deep knowledge in Power BI and Python. A fast learner seeking knowledge of new processes and an excellent practitioner at pattern recognition, attention to detail, and analytical thinking.

---

## PROFESSIONAL EXPERIENCE

---

### Data Analysis Using Excel Program CREATIVA

October 2023 - November 2023

- Acquired skills in data management and analysis through Excel.
- Conducted projects focused on data analysis, report generation, and workflow automation.
- Utilized advanced Excel formulas and functions to improve efficiency and productivity.

### Entrepreneurship and Innovation ITIDA

August 2024 - September 2024

- Gained foundational knowledge of entrepreneurship and innovation concepts.
- Contributed to developing project ideas, conducting market research, and analyzing findings.
- Executed training projects that included preparing business plans and innovative business models.
- Learned to apply data analysis tools like Excel to support decision-making and manage operations.

### Data Analysis Skills for the Freelance Professional National Telecommunication Institute (NTI)

November 2024 - Till Now

- Developed expertise in using data analysis tools such as Python, Excel, Power BI, and SQL to support freelance professionals in decision-making.
  - Conducted data cleaning, processing, and visualization to create meaningful insights for business optimization.
  - Utilized Python for automation and data manipulation, Excel for advanced reporting, Power BI for creating interactive dashboards, and SQL for querying databases.
  - Contributed to various projects by applying analytical skills to improve workflow and business strategies.
- 

## PROJECTS

---

- **Bike store:** This project was the data set bike store and the use of Power bi and Python (pandas,sqlite3,matplotlib,numpy)the most important Kips % Customer Retention Rate, Revenue, Sales by Some Period Last Years, % Net Profit Margin, more  
check on GitHub 🖱 <https://lnkd.in/dKsKK-wc>
- **E-commerce Customers:** This project was the data set E-commerce Customer and the use of Power bi and Python (pandas)the most important Kips % Return on Investment, Revenue, Profit, Sales by Some Period Last Years, % Net Profit Margin, % Margin, more  
check on GitHub 🖱 <https://lnkd.in/dgGiwNEY>
- **startup-expansion:** This project was the data set startup-expansion and the use of Power bi and Python (pandas)the most important Kips Revenue, Profit, COGS, % Net Profit Margin, % Margin, % Return on Investment, more
